

INDEX (Tom. III—IV)

Furuya, S. Van der Pol's equation with harmonic disturbance	III, 7
Furuya, S. Periodic solutions of the van der Pol-Mathieu equation	III, 109
Furuya, S. Periodic solutions of a nonlinear differential equation	IV, 47
Hirasawa, Y. On Newton's method in convex linear topological spaces	III, 15
Hirasawa, Y. On singular perturbation problems of non-linear systems of differential equations	III, 115
Hirasawa, Y. On singular perturbation problems of non-linear systems of differential equations, II	IV, 15
Hirasawa, Y. On singular perturbation problems of non-linear systems of differential equations, III	IV, 93
Hitotumatu, S. On the Neumann function of a sphere . . .	III, 1
Hitotumatu, S. Note on the Riesz decomposition of a subharmonic function	III, 69
Hitotumatu, S. A note on Levi's conjecture	IV, 105
Honda, K. On a decomposition theorem of primary groups .	IV, 53
Kimura, T. Sur les points singuliers des équations différentielles ordinaires du premier ordre, II	III, 43
Kimura, T. Sur une généralisation d'un théorème de Malmquist, II	III, 97
Kimura, T. Sur une généralisation d'un théorème de Malmquist, III	IV, 25
Krzywoblocki, M. Z. v. On the development of the mathematical theory of the boundary layer	III, 51
Krzywoblocki, M. Z. v. Corrections in Bibliography of the paper "On the development of the mathematical theory of the boundary layer"	III, 67
Sampei, Y. Supplement to the paper entitled "On lattice completions and closure operations"	III, 1
Seki, S. A metatheorem on <i>SLK</i>	III, 31
Seki, S. On transfinite inferences	IV, 43
Tsuji, M. On the modulus of a ring domain	IV, 1
Tsuji, M. On the cluster set of a meromorphic function . .	IV, 5
Tsuji, M. Remark on my former paper "On an extension of Löwner's theorem"	IV, 109
Tsuji, M. A metrical theorem on conformal mapping . . .	IV, 111

Ura, T. Sur les périodes fondamentales de solutions périodiques	IV, 113
Yûjôbô, Z. On the continuous systems of $n-1$ -dimensional algebraic varieties in an n -dimensional algebraic variety .	III, 37
Yûjôbô, Z. Corrections to my paper: On the continuous systems of $n-1$ -dimensional algebraic varieties in an n -dimensional algebraic variety	III, 95
Yûjôbô, Z. Supplements to my paper: On pseudoregular functions	IV, 11
Yûjôbô, Z. On absolutely continuous functions of two or more variables in the Tonelli sense and quasi-conformal mappings in the A. Mori sense	IV, 66
